Law Clerk or Extern Law Student needed!

Southeast Louisiana Legal Services (SLLS) is looking for an extern law student or volunteer law student to help with our Homeless One Stop Center Legal Clinic. We are looking for a year-long or semester long law student. This project helps end homelessness for marginalized people living with disabilities by increasing income, help improve access to healthcare by securing Social Security, Medicaid, and connection to medical providers, and increase access to justice. Many of the clients are Veterans or individuals with disabilities who are unable to work.

Law Students would be able to practice their interviewing skills, help draft briefs that will be used in hearings, will do legal research and writing, and learn how to manage a caseload. The student will work closely with an SLLS attorney, medical providers, and Social Workers at the One Stop Homeless Services Center, in Baton Rouge, to help these individuals stabilize their health and living environment.

Please send your resume, cover letter, and writing sample to volunteer@slls.org. Please make sure to point out that you are interested in this position.
